

DEPARTMENT OF TRANSPORTATION HAZARDOUS MATERIALS REGULATIONS BOARD

WASHINGTON, D.C. 20590

5292

SUBCHAPTER A—HAZARDOUS MATERIALS REGULATIONS BOARD

[Docket No. HM-8; Amdts. 172-19, 173-70, 174-17, 175-10, 176-5, 177-24]

LABELING OF HAZARDOUS MATERIALS

The purpose of these amendments to the hazardous materials regulations of the Department of Transportation is to adopt new labels and specify new regulations pertaining to their use on packages containing hazardous materials.

On July 22, 1970, the Hazardous Materials Regulations Board published a notice of proposed rule making, Docket No. HM-8; Notice 70-13 (35 FR 11742), which proposed to change its labeling requirements to be consistent with those contained in the United Nations recommendations. Interested persons were afforded an opportunity to participate in this rule making. Prior to Notice No. 70-13, the Board published a request for public advice on labels and classification in the *FEDERAL REGISTER* on October 16, 1968 (33 FR 15347), setting out the basis of the United Nations Labeling System. Subsequent to Notice No. 70-13, the Board published Notice No. 71-13 in the *FEDERAL REGISTER* on May 25, 1971 (36 FR 9449), setting forth additional proposals pertaining to the implementation of the new labeling system. The amendments published herein, however, are derived primarily from the proposals made under Notice No. 70-13 to the extent necessary to adopt the new labels. The other matters proposed under Docket No. HM-8 will be handled in future rule making actions.

The reason for the Board's delay in acting on this docket is the consideration it has been giving to the implementation of a hazard information system, such as was proposed in Docket No. HM-103 published in the *FEDERAL REGISTER* on June 27, 1972 (37 FR 12660, advanced notice of proposed rule making). Since it was proposed to modify the labels that were proposed in Docket No. HM-8 by the addition of "hazard information blocks" in the lower portion of most of the labels, the Board did not want to impose one change immediately upon another change in an area that would involve considerable effort and expense on the part of regulated industries. However, recent events have convinced the Board that it should no longer delay the implementation of the labeling requirements previously proposed.

The principal reason for immediate adoption of the new labeling requirements now is the fact that a number of foreign governments have adopted the United Nations Labeling System and have made the use of United Nations' labels mandatory. The Board was recently advised by one large shipper that it was having difficulty making shipments into the Federal Republic of Germany since that country has adopted the new labels. The situation has been temporarily alleviated by the granting of an extension to March 31, 1973. Other

countries have advised that the use of the new labels will be made mandatory by January 1, 1974. It has been reported that the United States exports chemicals worth in excess of \$4 billion. This does not include explosives, petroleum products, and consumer materials. A substantial portion of the chemicals exported are classed as hazardous materials. With this in mind, and since the Board has decided to adopt the new labeling requirements, the Board believes it should no longer delay action in this area because of the proposals it has made in Docket No. HM-103. This does not mean the Board is abandoning the proposals it made in that docket; however, it will have to consider appropriate timing for implementation of changes if it decides to adopt the proposals made in Docket No. HM-103.

A number of commenters responding to Notice No. 70-13 indicated their support of the basic purpose of the proposal, i.e., to adopt the United Nations' labels. Many comments were made pertaining to matters outside the scope of the proposal and others to particular matters concerning the implementation of the proposal.

Concerning the content of labels, several commenters requested that no language pertaining to special handling precautions be included on labels, such as the words "Danger," "Warning," or "Caution." One commenter pointed out that the proposed signal words would be inconsistent with the requirements of the Food and Drug Administration in some cases. Concerning the Board's statement that it doubts whether this detailed information should be included on a primary warning label, no commenters presented sufficient justification to include this type of information on the labels. Therefore, the Board has not adopted any of the suggested language that was set forth in the notice. The Board recognizes the limitations on placing detailed handling and emergency procedure information on labels and has decided that the information should not be included on the labels due to space limitations precluding the use of such information in a beneficial manner.

Several commenters raised objections to the use of a skull and crossbones symbol on the irritant label pointing out that, historically, the use of the skull and crossbones has been limited to those materials which are highly or extremely toxic. The Board agrees that it is not appropriate to require the use of this symbol on materials that are intended for use on people and animals. However, this symbol is required on the United Nations' label. Therefore, the Board is adopting two labels for irritants—one containing the skull and crossbones which will be authorized for import and export traffic, and the other for domestic shipments. The Board intends to propose that some other symbol, such as a tearing eye, be adopted in the United Nations recommendations to correct this matter in the future.

A comment was made concerning the proposed change to § 173.86 that would

permit shippers to make tentative classifications of explosives shipped for laboratory examination. The Board agrees that this would permit the exercise of judgment by persons who may not be properly qualified to make explosives classifications. Therefore, the Board has decided that the determination of the classification and appropriate labels to be applied to packages containing these samples will be made by specified elements of the Department of Defense for military explosives, and the Bureau of Explosives for commercial explosives.

Several commenters objected to the requirements for the labeling of Class C explosives. The Board has decided to adopt the exemption for small arms ammunition as proposed in the notice. As to the comments raised concerning primers and percussion caps, no proposal was made to change § 173.107. Paragraph (h) of that section does not require the labeling of these materials. Concerning the Board's proposal that other Class C explosives be labeled, no convincing argument was presented to alter the Board's position that most Class C explosives be labeled to identify their hazards. Future exemptions from labeling in this area will be handled on a case-by-case basis in accordance with the rule making procedures (see § 170.11).

Several commenters questioned the entry "No exemption" in the commodity list, § 172.5, following the entries for certain Class C explosives. The heading of the column is "Exemptions and packing." When there are no small quantity partial exemptions provided for an individual class, or when the nature of the material is such that no small quantity exemption is warranted, the entry "No exemption," followed by section reference means the shipper must look to the referenced section for the requirements that pertain to the material. For example, § 173.101 specifies the packaging and marking requirements for small arms ammunition. There is no small quantity exemption for these materials. Therefore, a "No exemption" entry is entered in the list of hazardous materials. This does not mean that the individual section does not contain an exemption for labeling or certain other requirements.

The notice contained proposals to adopt two new classes—"Water reactive materials" and "Spontaneously combustible materials." The Board has decided to withdraw these proposals for further study. It is not necessary they be adopted to implement the new labeling requirements. Use of the "Dangerous When Wet" and "Spontaneously Combustible" labels in conjunction with specified labels is permitted by this amendment.

A commenter recommended that the Board adopt specifications for the colors on labels. Such a proposal was made by the Board in Docket No. HM-103. The Board agrees that the different colors should be specified due to the wide variations observed in the colors of the labels presently in use. However, since specific color requirements were not proposed in the notice, color specifications are only being included in this amendment by the

addition of an appendix to Part 173 with a statement in § 173.404(d) to indicate that the colors specified in the appendix "should" be used. Inclusion of the word "should" indicates that the specifications in the appendix are not mandatory.

The list of hazardous materials set forth in § 172.5 is not being changed other than to list "Irritant" in place of "Poison, Class C," to list names of the new labels in place of the labels previously specified, to add new label entries for explosives, and to make minor editorial changes. The Board has decided that it is no longer appropriate to describe labels by their colors and that the required inscription is the best method to specify the labels to be used. Also, there are many paragraphs of regulations set forth in these amendments which only change references to labels or change references from Poison C or Tear Gas to Irritant or Irritating material.

The Board believes the labels it is adopting in this amendment are a significant improvement in the Department's hazardous materials communications requirements. With their adoption, there will be a single, intermodal labeling system harmonious with the regulations of other countries. It should be noted that new paragraph (h) in § 173-404 authorizes continued use of the labels presently required (except for explosives) until January 1, 1975. However, exporters are advised that their shipments may not be accepted for transportation by water or air to foreign destinations if they bear the labels required before this amendment since many countries are implementing labeling requirements corresponding to the United Nations Recommendations.

In consideration of the foregoing, 49 CFR Parts 172, 173, 174, 175, 176, and 177 are amended as follows:

PART 172—LIST OF HAZARDOUS MATERIALS CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL MATERIALS SUBJECT TO PARTS 170-189 OF THIS SUBCHAPTER

(A) In the table of contents following Subchapter A—Hazardous Materials Regulations Board, Part 172 is amended to read as set forth above.

(B) In Part 172 table of contents, the heading of Part 172 is amended to read as set forth above and § 172.2 are amended to read as follows:

(C) Section 172.2 is amended to read as follows:

§ 172.2 Materials not described.

A material whose proper shipping name is not shown in the list in § 172.5, and which must be classified as a hazardous material under the definitions in §§ 173.53, 173.88, 173.100, 173.115, 173.150, 173.151, 173.240, 173.300, 173.326, 73.343, 73.381, 173.386, or 173.389 of this subchapter, must be prepared and offered for shipment in compliance with the regulations applicable to the appropriate hazard classification.

(D) In § 172.4 paragraph (a) is amended to read as follows:

§ 172.4 Explanation of signs and abbreviations.

(a) Listed below are the hazard classifications covered by this subchapter. Also listed are the abbreviations and symbols used in § 172.5. For information, the United Nations numerical class designations are shown.

Classification	Abbreviation	United Nations Class
Class A Explosives	Expl. A	1
Class B Explosives	Expl. B	1
Class C Explosives	Expl. C	1
Flammable compressed gas	F.C.	2
Nonflammable compressed gas	Nonflam. C.G.	2
Flammable liquid	F.L.	3
Flammable solid	F.S.	4
Olfactory material	Ory. M.	5
Poisonous gas or liquid, class A	Poisons. A	6
Poisonous liquid or solid	Poisons. B	6
Irritating material	Irr. B.	6
Ecologic agent	Eco. Ag.	6
Radioactive materials	R.A.M.	7
Corrode material	Cor.	8

Containers, reused.	See § 173.28.				• Dichlorodifluoromethane-trichloro-monoethane-hair-monochloro-difluoromethane mixture.	Nont. C. G....	173.306, 173.304, 173.314.....	Nont. G.....	300 pounds.
Copper acetate-sulfate, solid (emerald green imperial green, King green, moss green, meadow green, milt green, parrot green, terra green).	Pois. B.....	173.344, 173.367.....	Pois.....	200 pounds.	• Dichlorodifluoromethane-trichloro-trifluoroethane mixture.	Nont. C. G....	173.306, 173.304, 173.314.....	Nont. G.....	300 pounds.
Copper alum, solid (Schultz's green, emerald green, copper green, copper ortho-arsenite, Smidt's green).	Pois. B.....	173.304, 173.365.....	Pois.....	200 pounds.	* Dichlorodifluoromethane-monofluoromethane mixture.	Nont. C. G....	173.306, 173.314, 173.315.....	Nont. G.....	300 pounds.
Copper cyanide.	See § 173.370.				Lithiumchlorofluoromethane and difluoromethane mixture (constant boiling mixture).	Nont. C. G....	173.306, 173.304, 173.314, 173.315.....	Nont. G.....	300 pounds.
Cordium detonant (use). See Explosives.	Expl. C.....	No exemption, 173.104.....	Expl. C.....	300 pounds.	• Dichloroacetic-vanadic acid, dry, containing more than 30% available chlorine.	Ory. M.....	173.153, 173.217.....	Ory.....	100 pounds.
Corrodative battery fluid. See Electrolyte (acid) or Alkaline corrosive battery fluid.					Difluoropropene, solid.	Ory. N.....	173.153, 173.154.....	Ory. per.....	25 pounds.
Corrodive liquid, n.o.s.					Difluoropropene, w/c solution.	Ory. M.....	173.153(b), 173.224.....	Ory. per.....	1 quart.
Corrosive, bold, n.o.s., burnt cotton.	Cor.....	173.244, 173.245b.....	Corrosive.....	100 pounds.	1,1,2-trifluoroethane.	Cor.....	No exemption, 173.280.....	Corrosive.....	In gallons.
Cotton, burnt.	See Burnt cotton.				1,1,2-trifluoroethane.	Cor.....	F. L.....	F. L.....	10 gallons.
Cotton waste, oily with more than 5 percent of animal or vegetable oil.	F. S.....	No exemption, 173.167.....	F. S.....	Not accepted.	1,1,2-trifluoroethane, solid.	Cor.....	173.108, 173.119.....	F. L.....	10 gallons.
Crotonaldehyde.	F. L.....	173.118, 173.119, 173.119, 173.120, 173.121, 173.122.....	F. L.....	10 gallons.	1,1,2-trifluoroethane, w/c.	Cor.....	173.118, 173.119.....	F. L.....	10 gallons.
*Crude nitro fertilizer solution.	Nont. C. G....	173.306, 173.310, 173.311, 173.312, 173.313, 173.314.....	Pois.....	300 pounds.	1,1,2-trifluoroethane, w/c.	Cor.....	173.118, 173.119.....	F. L.....	10 gallons.
Cumia oil, petroleum.	Ory. M.....	173.118, 173.120, 173.121, 173.122.....	Ory. per.....	10 gallons.	1,1,2-trifluoroethane, w/c.	Cor.....	173.118, 173.119.....	F. L.....	10 gallons.
Cumite, petroperoxide.	Cor.....	173.244, 183.249.....	Corrosive.....	1 quart.	1,1,2-trifluoroethane, w/c.	Cor.....	173.118, 173.119.....	F. L.....	1 quart.
Cynipheleucine-luminous solution.	Cor. (b), 173.224b.....	No exemption, 173.167.....	F. S.....	Not accepted.	1,1,2-trifluoroethane, w/c.	Cor.....	173.118, 173.119.....	F. L.....	1 quart.
Cyanide of calcium or caustic calcium, mixtures, solid.	Pois. B.....	173.370 (c) and (d).....	Pois.....	200 pounds.	1,1,2-trifluoroethane, w/c.	Cor.....	173.118, 173.119.....	F. L.....	1 quart.
Cyanides of copper, zinc, lead, and silver.	Pois. A.....	No exemption, 173.370.....	Pois.....	Not accepted.	1,1,2-trifluoroethane, w/c.	Cor.....	173.118, 173.119.....	F. L.....	1 quart.
Cyanides or cyanide mixtures, dry.	Pois. B.....	173.344, 183.470.....	Pois.....	200 pounds.	1,1,2-trifluoroethane, unsymmetrical.	Cor. F. L.....	No exemption, 173.145.....	Ory. per.....	300 pounds.
Cyanide of potassium, liquid.	Pois. B.....	173.345.....	Pois.....	55 gallons.	1,1,2-trifluoroethane, unsymmetrical.	Cor. F. L.....	No exemption, 173.145.....	Ory. per.....	300 pounds.
Cyanide of potassium, solid.	Pois. B.....	173.350.....	Pois.....	200 pounds.	1,1,2-trifluoroethane, w/c.	Cor. F. L.....	173.118, 173.119.....	F. L.....	10 gallons.
Cyanide of sodium, liquid.	Pois. B.....	173.345.....	Pois.....	55 gallons.	1,1,2-trifluoroethane, w/c.	Cor. F. L.....	173.118, 173.119.....	F. L.....	10 gallons.
Cyanide of sodium, solid.	Pois. B.....	173.350.....	Pois.....	200 pounds.	1,1,2-trifluoroethane, w/c.	Cor. F. L.....	173.118, 173.119.....	F. L.....	10 gallons.
Cyanogen bromide containing less than 0.9 percent water.	Pois. A.....	No exemption, 173.328.....	Pois. pas.....	Not accepted.	1,1,2-trifluoroethane, w/c.	Cor. F. L.....	173.118, 173.119.....	F. L.....	10 gallons.
Cyanogen bromide.	Pois. B.....	No exemption, 173.328.....	Pois. pas.....	Not accepted.	1,1,2-trifluoroethane, w/c.	Cor. F. L.....	173.118, 173.119.....	F. L.....	10 gallons.
Cyclonite, liquid.	P. L.....	173.118, 173.119, 173.120, 173.121, 173.122.....	Pois. per.....	25 pounds.	1,1,2-trifluoroethane, w/c.	Cor. F. L.....	173.118, 173.119.....	F. L.....	10 gallons.
Cyclonite, peroxide not over 50 percent concentration.	Ory. M.....	173.118, 173.119, 173.120, 173.121, 173.122.....	Ory. per.....	25 pounds.	1,1,2-trifluoroethane, w/c.	Cor. F. L.....	173.118, 173.119.....	F. L.....	10 gallons.
Cyclonite, peroxide over 50 percent concentration but not exceeding 85 percent concentration.	Ory. M.....	No exemption, 173.157.....	Ory. M.....	25 pounds.	1,1,2-trifluoroethane, w/c.	Cor. F. L.....	173.118, 173.119.....	F. L.....	10 gallons.
Cyclohexene trichlorosilane.	Cor.....	No exemption, 173.280.....	Corrosive.....	10 gallons.	1,1,2-trifluoroethane, w/c.	Cor. F. L.....	173.118, 173.119.....	F. L.....	10 gallons.
Cyclohexene trichlorosilane.	Cor.....	No exemption, 173.280.....	Corrosive.....	10 gallons.	1,1,2-trifluoroethane, w/c.	Cor. F. L.....	173.118, 173.119.....	F. L.....	10 gallons.
Cyclopentane, methyl.	F. L.....	173.118, 173.119, 173.120, 173.121, 173.122.....	F. L.....	10 gallons.	1,1,2-trifluoroethane, w/c.	Cor. F. L.....	173.118, 173.119.....	F. L.....	10 gallons.
Cyclopentane.	F. L.....	173.306, 183.304.....	F. G.....	300 pounds.	1,1,2-trifluoroethane, solid.	Irr.....	No exemption, 173.382.....	Irritant.....	20 pounds.
Cyclopentene, hydrochloroform, deas.	F. C. G.....	173.306, 183.304.....	F. G.....	300 pounds.	Diphosphogene. See Propane.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Cyclotriphosphazene, carb. with less than 10 percent of water.					Diphosphogene.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Cylinders, empty.	F. S.....	No exemption, 173.236.....	F. S.....	25 pounds.	Diphosphogene.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Decolorate.	Expl. C.....	No exemption, 173.106.....	Expl. C.....	150 pounds.	Dibenzyltrichlorostilbene.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Delayed electric fuses, class A explosives.	Expl. A.....	No exemption, 173.69.....	Expl. A.....	Not accepted.	Dressing, leather, paint, varnish, enamel, etc.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Delayed alcohol.	See Alcohol.	No exemption, 173.69.....	Expl. A.....	Not accepted.	Drill cartridges.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Detonating bomb.					Drugs, chemicals, medicines or cosmetics, n.o.s.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Detonating fuses, class A explosives.	Expl. A.....	No exemption, 173.69.....	Expl. C.....	150 pounds.	Drugs, chemicals, medicines or cosmetics, n.o.s.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Detonating fuses, class C explosives.	Expl. C.....	No exemption, 173.113.....	Expl. C.....	150 pounds.	Drugs, chemicals, medicines or cosmetics, n.o.s.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Detonating primers.	Expl. A.....	No exemption, 173.68.....	Expl. A.....	Not accepted.	Drugs, chemicals, medicines or cosmetics, n.o.s.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Detonator propellant. See Initiating explosive.					Drums, empty.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Dichloroethylene.	F. L.....	173.118, 173.119, 173.120, 173.121, 173.122.....	F. L.....	10 gallons.	Drums, chemicals, medicines or cosmetics, n.o.s.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Dichlorodifluoromethane.	Nont. C. G....	173.306, 173.307, 173.308, 173.309, 173.310, 173.311, 173.312, 173.313, 173.314.....	Nont. G.....	300 pounds.	Drums, chemicals, medicines or cosmetics, n.o.s.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Dichlorodifluoromethane-methane mixture.	Nont. C. G....	173.306, 173.307, 173.308, 173.309, 173.310, 173.311, 173.312, 173.313, 173.314.....	Nont. G.....	300 pounds.	Drums, chemicals, medicines or cosmetics, n.o.s.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Dichlorodifluoromethane-nitro methane mixture.	Nont. C. G....	173.306, 173.307, 173.308, 173.309, 173.310, 173.311, 173.312, 173.313, 173.314.....	Nont. G.....	300 pounds.	Drums, chemicals, medicines or cosmetics, n.o.s.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Dichlorodifluoromethane-nitro methane mixture.	Nont. C. G....	173.306, 173.307, 173.308, 173.309, 173.310, 173.311, 173.312, 173.313, 173.314.....	Nont. G.....	300 pounds.	Drums, chemicals, medicines or cosmetics, n.o.s.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)		
Dichlorodifluoromethane-nitro methane mixture.	Nont. C. G....	173.306, 173.307, 173.308, 173.309, 173.310, 173.311, 173.312, 173.313, 173.314.....	Nont. G.....	300 pounds.	Drums, chemicals, medicines or cosmetics, n.o.s.	Expl. 0.0.....	See § 173.314 (c) Table 173.315(a)

Dummy cartridges.....		See § 173.55.			Explosives, class A.....		See § 173.53.		
Dusts, by-product, poisonous. <i>See</i>					Explosives, class A.....		See § 173.58.		
Arsenical dust.					Explosives, class C.....		See § 173.100.		
Dynamic, Sec. High explosive.	Expl. A.....	No exemption, 173.66.....	Expl. A.....	Not accepted.	Explosives composition.....	Expl. A or B.....	No exemption, 173.53, 173.61. Expl. A or B.....	10 pounds.	
Electric blasting caps—more than 1,000.	Expl. C.....	No exemption, 173.103.....	Expl. C.....	Expl. A.....	Explosive mine.....	Expl. A.....	No exemption, 173.56.	Expl. A.....	Not accepted.
Electric blasting caps—1,000 or less..	Expl. C.....	No exemption, 173.106.....	Expl. C.....	Expl. B.....	Explosive power device, class B.....	Expl. B.....	No exemption, 173.94.	Expl. B.....	150 pounds.
Electric storage batteries, wet. <i>See</i>	Expl. C.....	No exemption, 173.106.....	Expl. C.....	Expl. C.....	Explosive power device, class C.....	Expl. C.....	No exemption, 173.102.	Expl. C.....	150 pounds.
Batteries, electric storage, wet.					Explosive power device.....	Expl. A.....	No exemption, 173.56.	Expl. A.....	Not accepted.
Electrolyte (acid), battery fluid.	Cor.....	173.244, 173.257.....	Corrosive.....	5 gallons.	Explosive rivets.....	Expl. C.....	No exemption, 173.102.	Expl. C.....	150 pounds.
Electrolyte (acid) or alkaline corrosive battery fluid packed with storage batteries.	Cor.....	No exemption, 173.258.....	Corrosive.....	2 gallons.	Explosive samples for laboratory examination.	Expl. C.....	No exemption, 173.100(q).	Expl. C.....	150 pounds.
Electrolyte (acid) or alkaline corrosive battery fluid packed with battery charger, radio current supply device, or electronic equipment and arithmetical devices.	Cor.....	No exemption, 173.259.....	Corrosive.....	6 quarts.	*Extracts, liquid flavoring.	Expl. A.....	No exemption, 173.56.	Expl. A.....	Not accepted.
Empty cartridge bags with black powder igniters.	Expl. C.....	No exemption, 173.106.....	Expl. C.....	150 pounds.	Fibers or fibers such animal or vegetable oil.	F. L.....	173.118, 173.119	F. L.....	10 gallons.
Empty cartridge cases, primed.....	Expl. C.....	No exemption, 173.107.....	Expl. C.....	150 pounds.	Fibers, waste, wet. <i>See</i> Waste wool, wet.	Pois. B.....	173.364, 173.365.	Pois. B.....	200 pounds.
Enamel. <i>See</i> Paint, enamel, lacquer, stain, shellac, varnish, lacquer, stain, shellac, varnish, lacquer.					Ferrous arsenite, solid.	Pois. B.....	173.364, 173.365.	Pois. B.....	200 pounds.
Engines, internal combustion.	F. C. G.....	No exemption, 173.304.....	F. O.....	60 pounds.	Ferrous arsenite, solid.	Pois. B.....	173.364, 173.365.	Pois. B.....	200 pounds.
Engine starting fluid.....	F. L.....	173.118, 173.119.....	F. L.....	10 gallons.	Fertilizer, ammoniating solution containing free ammonia.	Nont. C. Q.....	173.306, 173.304, 173.314.	Nont. C. Q.....	300 pounds.
Eradicators, paint or grease, liquid.	F. L.....	No exemption, 173.299.....	Corrosive.....	10 pounds.	Fertilizer, fertilizer. <i>See</i> Garbage.				
Ether acid, liquid, n.o.s.	Cor.....	No exemption, 173.306.....	F. O.....	300 pounds.	Fiber, burnt, charred, fibrous, or fibrous, with animal or vegetable oil.	F. S.....	No exemption, 173.169.	F. S.....	Not accepted.
Ethane.....	F. C. G.....	173.306, 173.304.....	F. O.....	10 gallons.	Fiber, or fabrics, with animal or vegetable oil.	F. S.....	No exemption, 173.170.	F. S.....	Not accepted.
Ether, ethyl. <i>See</i> Ether.	F. L.....	173.113, 173.115.....	F. L.....	10 gallons.	Film, motion-picture and toy pieces of.				
Ether acetate.	F. L.....	173.118, 173.119.....	F. L.....	10 gallons.	See Motion-picture film, toy and motion-picture film scrap.				
Ethyl alcohol. <i>See</i> Alcohol, n.o.s.					Firecrackers. <i>See</i> Common fireworks, or Special fireworks.				
Ethyl aldehyde. <i>See</i> Acetaldehyde.	F. L.....	No exemption, 173.123.....	F. L.....	300 pounds in cylinder, 15 pounds in other containers.	Firecracker shells. <i>See</i> Common fireworks, or Special fireworks.				
Ethyl chloride.	F. L.....	No exemption, 173.288.....	Corrosive.....	5 pints.	Fire extinguisher charges.	Cor. F. L.....	See § 173.58(d).	Cor. F. L.....	Corrodive..... 1 gallon.
Ethyl chloroformate.	Cor.....	No exemption, 173.288.....	Corrosive.....	5 pints.	Fire extinguisher charges.	Cor. F. L.....	See § 173.58(d).	Cor. F. L.....	Corrodive..... 1 gallon.
Ethyl chloroformate. <i>See</i> Corrosive liquid, n.o.s.					Fire extinguisher charges.	Cor. F. L.....	See § 173.58(d).	Cor. F. L.....	Corrodive..... 1 gallon.
Ethyl dichloroarsine.	F. L.....	No exemption, 173.328.....	Pols. gas.....	Not accepted.	Fireworks, common.	Nont. C. G.....	173.306.....	Nont. G.....	300 pounds.
Ethyl dichlorosilane.	F. L.....	173.135.....	F. G.....	10 gallons.	Fireworks, exhibition display pieces.	Expl. C.....	No exemption, 173.160(r).	Expl. C.....	200 pounds.
Ethylene dichloride.	F. C. G.....	173.306, 173.304.....	F. L.....	300 pounds.	Fireworks, special.				
Ethylenimine, inhibited.	F. L.....	173.118, 173.119.....	F. L.....	5 gallons.	Fish meal. <i>See</i> Fish scrap or fish meal containing less than 6 percent or more than 12 percent moisture.				
Ethylen oxide.	F. L.....	No exemption, 173.124.....	F. L.....	300 pounds in cylinders, 15 pounds in other containers.	Fish meal.	R. A. M.....	173.393, 173.396.	Radioactive.....	See § 173.396.
Ethyl formate.	F. L.....	173.118, 173.119.....	F. L.....	10 gallons.	Fissile radioactive materials.	Cor. F. L.....	173.244, 173.251.	Corrosive.....	See § 173.396.
Ethyl mercaptan.	F. L.....	No exemption, 173.126.....	F. L.....	10 gallons.	Fissile radioactive materials, liquid.	Cor. F. L.....	173.244, 173.251.	Corrosive.....	See § 173.396.
Ethyl methyl ether.	F. L.....	173.118, 173.119.....	F. L.....	10 gallons.	Flammable liquids, n.o.s.	F. S.....	173.118, 173.119.	Corrosive.....	10 gallons.
Ethyl methyl ketone.	F. L.....	173.118, 173.119.....	F. L.....	10 gallons.	Flame sheet, solid.	F. S.....	173.153, 173.154.	Corrosive.....	25 pounds.
Ethylnitrate (nitric ether).	F. L.....	173.118, 173.119.....	F. L.....	10 gallons.	Flares. <i>See</i> Common fireworks.				
Ethylnitrate (nitro ether).	F. L.....	173.118, 173.119.....	F. L.....	10 gallons.	Flare, aerial. <i>See</i> Special fireworks.				
Ethyl phenyl dichlorosilane.	Cor.....	No exemption, 173.288.....	Corrosive.....	10 gallons.	Flash cartridges. <i>See</i> Special fireworks and low explosives.				
Ethyldiphosphonodichloride, anhydride.					Flash crackers. <i>See</i> Common fireworks.				
Ethyldiphosphonodichloride, anhydride. <i>See</i> Corrosive liquid, n.o.s.					Flare powder. <i>See</i> Special fireworks and low explosives.				
Ethyldiphosphonodichloride, anhydride.					Flare sheet. <i>See</i> Special fireworks and low explosives.				
Etiologic agent, n.o.s.	Etio. ag.....	No exemption, 173.135.....	F. L.....	10 gallons.	Flexible linear shaped charges.	Expl. C.....	No exemption, 173.104.	Expl. C.....	300 pounds.

Fulminate of mercury, dry.	Forbidden explosive.			ForbIDDEN explosive.	Hatinum metal, dry, mechanically produced, finer than 20 mesh particle size.	F. S.	No exemption, 173.24	F. S.	75 pounds.
Fulminate mercury, wet. See Initiating explosive.		See § 173.152 (a) Note 1.			Hatinum metal, wet, chemically produced, finer than 20-mesh particle size.	F. S.	No exemption, 173.24	F. S.	150 pounds.
Fumigants					Hatinum metal, wet, mechanically produced, finer than 2 ^{1/2} mesh particle size.	F. S.	No exemption, 173.24	F. S.	150 pounds.
Furniture polish. See *Polishes, metal, stove, furniture, and wood, liquid.					Hatinum—oxygen mixture.	F. S.	No exemption, 173.172	F. S.	Not accepted.
*Furniture or wood stains, liquid.					Hhardtite ultrachlorosilane.	Expl. A.	No exemption, 173.305	Expl. A.	Not accepted.
See *Paint, enamel, lacquer, stain, shellac, varnish, etc.					Hhardtite tetraphosphate and com- pressed gas mixture.	Expl. C.	No exemption, 173.108	Expl. C.	Not accepted.
Fuse igniters.					Hhardtite tetraphosphate, liquid.	F. L.	173.116	F. L.	200 pounds.
Fuse, instantaneous. See Instantaneous fuse.					Hexethyl tetraphosphate mixture.	Pois. B.	173.358	Pois.	1 quart.
Fuse lighters.					Hexethyl tetraphosphate mixture.	Pois. B.	173.357	Pois.	300 pounds.
Fuse, multi-detonating, inert, clad.					Heptan—oxygen mixture.	Pois. B.	173.350	Pois.	300 pounds.
See Multi-detonating fuse, metal clad.					Heptane ultrachlorosilane.	Nont. C. G.	173.306, 173.302, 173.314	Nont. G.	300 pounds.
Fuse, safety. See Safety fuse.					Heptane ultrachlorosilane.	F. L.	173.311, 173.317	F. L.	10 gallons.
Fuses, combination, class A explosives.					Heptanethiophosphate and com- pressed gas mixture.	Pois. A.	173.234	Corrosive ...	10 gallons.
Fuses, detonating, class A explosives.					Hexethyl tetraphosphate, liquid.	Pois. A.	173.234	Pois. A.	Not accepted.
Fuses, detonating, class A explosives, stars, radioactive.					Hexylamine.	Pois. B.	173.357	Pois.	1 quart.
Fuses, detonating, class C explosives.					Hexylamine.	Pois. B.	173.350	Pois.	300 pounds.
Fuses, percussion.					Hexylamine.	Pois. B.	173.350	Pois.	1 quart.
Fuses, time.					Heptanethiophosphate acid.	Cor.	173.251	Cor.	Corrosive ...
Fuses, tracer.					Heptanethiophosphate propylene.	Nont. C. G.	173.304, 173.314	Nont. G.	Corrosive ...
Gabage baggage containing test gas.					Heptanethiophosphate solution.	Cor.	173.244, 173.240, 173.242	Cor.	Corrosive ...
X percent of moisture.					Heptane.	P. L.	173.118, 173.119	F. L.	10 gallons.
Gas cylinders, empty.					Heptane ultrachlorosilane.	Cor.	173.245	Cor.	10 gallons.
Gas drips, hydrocarbon.					High explosives.	Expl. A.	173.246	Expl. A.	See § 173.56.
Gas identification sets.					High explosives, liquid.	Pois. B.	173.351	Pois. B.	10 gallons.
Gas mine. See Explosive mine.					Hydraulic accumulators (pre- pared with nonflammable, non- liquefied compressed gas).	See § 173.306(a)	173.351	Pois.	1 quart.
Gasoline.					Hydratine, antivirous.	Cor.	173.276	Cor.	Corrosive ...
Glazing dynamite. See High explosive.					Hydratine solution containing 50 percent or less of water.	Cor.	173.276	Cor.	Corrosive ...
Gold paint.					Hydrofluoric acid.	Cor.	173.244	Cor.	1 gallon.
lacquer, stain, shellac, varnish.					Hydrobromic acid.	Cor.	173.244, 173.322	Cor.	1 gallon.
Grenades, empty, primed.					Hydrochloric acid, anhydrous.	See	Hydrochloric acid, anhydrous.	See	Hydrochloric acid, anhydrous.
Grenades, hand. See Hand grenades.					Hydrochloric acid, anhydrous.	See	Hydrochloric acid, anhydrous.	See	Hydrochloric acid, anhydrous.
Grenades, hand, or rifle, explosive.					Hydrochloric acid, liquefied.	Cor.	173.306, 173.304, 173.311	F. G.	Corrosive ...
with gas, smoke or incendiary ma- terial.					Hydrochloric acid, liquefied.	F. C. G.	173.306, 173.304, 173.311	F. G.	5 pints.
Grenades, hand or rifle grenades.					Hydrochloric acid, liquefied.	F. C. G.	173.306, 173.304, 173.311	F. G.	Corrosive ...
smoke or incendiary material, with g-a, without bursting charges.					Hydrochloric acid, liquefied.	Cor.	173.244, 173.322	P. G.	300 pounds.
Grenades, police.					Hydrochloric acid, liquefied.	Cor.	173.244, 173.322	P. G.	10 pints.
poison gas, class A.					Hydrocyanic acid, liquefied.	Cor.	173.322	P. G.	300 pounds.
Grenades, rifle.					Hydrocyanic acid, liquefied.	P. G.	173.322	P. G.	Not accepted.
See Rifle grenades.					Hydrocyanic acid (plastic), unstabili- zed.	Pois. A.	173.322	P. G.	Not accepted.
Grenades, tear gas.					Hydrocyanic acid (plastic), unstabili- zed.	Pois. A.	173.322	P. G.	Not accepted.
Grenades.					Hydrocyanic acid solutions.	Pois. B.	No exemption, 173.351	Pois.	10 pints.
Quinidine nitrate.					Hydrofluoric acid, anhydrous.	Cor.	173.244, 173.254(a)	Cor.	25 pounds.
Guano nitrato minoxididene hy- droxidene. See Initiating explosive.					Hydrofluoric acid, sulfuric acids, mix- tures.	Cor.	173.244, 173.254(b)	Cor.	10 pounds.
Guano, nitroguano, paraffin detergent.					Hydrogen silicic acid.	Cor.	173.244, 173.265	Corrosive ...	10 pints.
See Limiting explosive.					Hydrogen.	F. C. G.	173.306, 173.314	F. C. G.	300 pounds.
Guided missile warheads.					Hydrogen bromide.	Nont. C. G.	173.306, 173.304	Nont. G.	300 pounds.
Ion act. illuminating, gas, incendiary or smoke projectile.					Hydrogen chloride.	F. C. G.	173.306, 173.304	F. C. G.	300 pounds.
Guided missiles without warheads.					Hydrogen, liquefied.	Cor.	173.244, 173.316	Cor.	Not accepted.
Rocket motors, class A explosives or Rocket motors, class B explosives.					Hydrogen peroxide (hydrogen dioxide).	Cor.	173.244, 173.266	Corrosive ...	1 gallon.
See High explosives.					Hydrogen sulfide, solutions containing over 7 percent available chlorine by weight.	F. C. G.	173.306, 173.304, 173.314	F. C. G.	300 pounds.
Hallite, mineral, dry, chemically pro- duced, finer than 20 mesh particle size.					Hydrogen sulfide, solutions containing over 7 percent available chlorine by weight.	Cor.	173.277	Corrosive ...	4 gallons.

Projectiles, illuminating, incendiary, or incendiary, with bursting charge but without propelling charge. See Special fireworks.					Road asphalt or tar, illuminating electric fuses.	F. L.	173.118, 173.131	F. L.
Propane or Liquified petroleum gas.					Rocket bombs with electric primers or electric fuses.	See § 173.35		10 gallons.
SZ Liquified petroleum gas.	Expl. A.	No exemption, 173.64(d)	Expl. A.	See § 173.56.	Rocket ammunition with empty Expl. B.	No exemption, 173.90	Expl. B.	Not accepted.
Propellant explosives, class A.	Expl. B.	No exemption, 173.53	Expl. B.	10 pounds.	Rocket ammunition with explosive Expl. A.	No exemption, 173.57	Expl. A.	Not accepted.
Propellant explosives (liquid), class B.	Expl. B.	No exemption, 173.53	Expl. B.	10 pounds.	Rocket ammunition with illuminating projectiles.	Expl. A.	No exemption, 173.57	Expl. A.
Propellant explosives (solid), class B Expl. B.	No exemption, 173.53	Expl. B.	Expl. B.	Not accepted.	Rocket ammunition with solid projectiles.	Expl. A.	No exemption, 173.57	Expl. A.
Propellant explosives in water unstable, condemned or deteriorated (ammunition packed for canon or small arms).	Expl. B.	No exemption, 173.53	Expl. B.	Not accepted.	Rocket ammunition with incendiary projectiles.	Expl. A.	No exemption, 173.57	Expl. A.
Propellant explosives (solid), than B, and ammonium primers. See Propellant explosives, class B.	Expl. B.	No exemption, 173.139	F. L.	5 pints.	Rocket ammunition with inert projectiles.	Expl. B.	No exemption, 173.50	Expl. B.
Propylene imine, inhibited.	F. L.	173.118, 173.119	F. L.	10 gallons.	Rocket ammunition with smoke projectiles.	Expl. A.	No exemption, 173.57	Expl. A.
Propylene oxide.	F. L.	173.118, 173.119	F. L.	10 gallons.	Rocket ammunition with solid projectiles.	Expl. B.	No exemption, 173.50	Expl. B.
Propyl alcohol. See Alcohol, n.o.s.	F. L.	No exemption, 173.141	F. L.	10 gallons.	Rocket engines (liquid), class B Expl. B.	No exemption, 173.56	Expl. B.	Not accepted.
Propyl mercaptan.	F. L.	No exemption, 173.280	F. L.	10 gallons.	Rocket engines (solid). See Common fireworks. Rocket fireworks. See Common fireworks.	Expl. A.	No exemption, 173.57	Expl. A.
Propylene or Liquified petroleum gas. See Liquified petroleum gas.	Expl. B.	No exemption, 173.118, 173.119	F. L.	10 gallons.	Rocket motors, class B explosives. See Rocket motors, class B explosives.	Expl. A.	No exemption, 173.79	Expl. A.
Pyrazic acid. See Hydrocyanic acid.	F. S.	No exemption, 173.195	F. S.	50 pounds.	Rocket motors, class B explosives. See Rocket motors, class B explosives.	Expl. B.	No exemption, 173.92	Expl. B.
Pyrolyne liquids, n.o.s.	F. L.	173.197	F. S.	3½ pounds.	Rough ammonium tankages. See Cement, rubber cement. See Cement, rubber cement.	F. S.	No exemption, 173.210	F. S.
Pyroxylin, chlorine.	F. L.	173.244, 173.247	F. L.	1 quart.	Rubber scrap or rubber buffings. See Rubber, shoddy, regenerated rubber, or reclaimed rubber.	F. S.	173.153, 173.201	F. S.
Pyroxylin, cement. See Cement, pyroxylin plastic scrap.	F. S.	173.244, 173.247	F. L.	10 gallons.	Rubber, shoddy, regenerated rubber, or reclaimed rubber.	F. S.	173.153, 173.201	F. S.
Pyroxylin plastics, rods, sheets, rolls, tubes.	F. S.	No exemption, 173.196	F. S.	10 gallons.	Safety fuse. See § 173.100	F. L.	10 gallons.	
Pyroxylin solution.	F. L.	173.197	F. S.	10 gallons.	Expl. C.	173.118, 173.119	F. L.	10 gallons.
Pyroxylin solvent, n.o.s.	F. L.	173.198	F. L.	10 gallons.	Expl. C.	173.118, 173.119	F. L.	10 gallons.
Radio current, high voltage.	F. L.	173.198, 173.250	F. L.	10 gallons.	Salts of Potassium nitrate. Salt peter, Chile. See Sodium nitrate, Sodium, Nitrates, Explosives. See § 173.36.			
Rectifiers (acid in battery fluid).	R. A. M.	173.301(b)	None.....	See § 173.301.	Special fireworks and articles of explosives.	Expl. C.	150 pounds.	
Radioactive devices.	R. A. M.	173.301	Radioactive. See § 173.302.	See § 173.302.	Special fireworks and articles of explosives.	Expl. C.	150 pounds.	
Radioactive materials, low specific activity (LSA).	R. A. M.	173.308, 173.343	Radioactive. See § 173.303.	See § 173.303.	Special fireworks and articles of explosives.	Expl. C.	150 pounds.	
Radioactive materials, n.o.s.	R. A. M.	173.308, 173.395	Radioactive. See § 173.306.	See § 173.306.	Special fireworks and articles of explosives.	Expl. C.	150 pounds.	
Radioactive materials, special form.	R. A. M.	173.308, 173.394	Radioactive. See § 173.303.	See § 173.303.	Special fireworks and articles of explosives.	Expl. C.	150 pounds.	
Radioactive materials, small quantity.	F. S.	No exemption, 173.199	F. S.	None.....	Special fireworks and articles of explosives.	Expl. C.	150 pounds.	
				Not accepted.	Special fireworks and articles of explosives.	Expl. C.	150 pounds.	

Article	Classed as	Exemptions and packing (see sec.)	Label required if not exempt	Maximum quantity in 1 outside container by rail express	Article	Classed as	Exemptions and packing (see sec.)	Label required if not exempt	Maximum quantity in 1 outside container by rail express
Scheff's green. <i>See Copper arsenite.</i>					Sodium nitrate.....	Ory. M.....	173.153, 173.182	Ory.	100 pounds.
Self-lighting cigarettes. <i>a</i>		See § 173.21 (d).			Sodium nitrite.....	Ory. M.....	173.153, 173.154, 173.234	Ory.	100 pounds.
Self-propelled vehicles.....		See §§ 173.120, 173.257, 173.306,			Sodium nitrite milled (used) with potassium nitrate.....	Ory. M.....	173.153, 173.183	Ory.	100 pounds.
Sharpened charges, commercial. <i>See</i> See § 173.65 (h).	F. L.....	173.118, 173.123.....	F. L.....	55 gallons.	Sodium nitrite mixtures (sodium ni- trate, sodium nitrite, and potassium nitrate). Sodium permanganate.....	Ory. M.....	173.153, 173.234	Ory.	100 pounds.
Sheet explosives. <i>See</i> Paint, enamel, lacquer, stain, shellac, varnish, etc.					Sodium picramate wet with 20 per- cent of water.....	Ory. M.....	No exemption, 173.205	Ory.	25 pounds.
Sheila, <i>lifuid</i> . <i>See</i> Common fire- works, <i>lifuid</i> .					Sodium potassium alloys.....	F. S.....	No exemption, 173.206	F. S.....	25 pounds.
Ship distress signals. <i>See</i> Special fireworks.					Sodium sulfide.....	F. S.....	173.153, 173.206	F. S.....	300 pounds.
Signal flares. <i>Expl. C.</i>		No exemption, 173.108	<i>Expl. C.</i>	200 pounds.	Solvents no. 9.....	F. L.....	173.153, 173.179	F. L.....	15 gallons.
Silicon chlorite (<i>tetrachloride</i>). <i>Cor.</i>	Cor. C. G.....	173.244, 173.247	Corrosive.....	1 quart.	Sportkites. <i>See</i> Common fireworks.	Expl. B.....	No exemption, 173.38(d)	Expl. B.....	200 pounds.
Silicon tetrafluoride. <i>Cor.</i>	Cor. C. G.....	173.306, 173.307	Corrosive.....	1 quart.	Spent iron mass. <i>See</i> Iron mass, spent.	Expl. B.....	No exemption, 173.31	Expl. B.....	200 pounds.
Silver cyanide.....		See § 173.370.	Ory. M.....	100 pounds.	Spent iron sponge. <i>See</i> Iron sponge, spent.				
Silver nitrate.....			Ory. M.....	173.153, 173.182	Spent mineral acid.....	Cor. F. S.....	No exemption, 173.218	Corrosive.	1 quart.
Sludge acid.....			Ory. M.....	100 pounds.	Spent oxide.....	Cor. F. S.....	No exemption, 173.174	F. S.....	Not accepted.
Small arms ammunition, tear gas cartridges. <i>Expl. C.</i>	Expl. C.	No exemption, 173.101	Expl. C.	150 pounds.	Spent sulfuric acid.....	Cor. F. S.....	No exemption, 173.248	Corrosive.	1 quart.
Smoke bombs primers. <i>Expl. C.</i>	Expl. C.	No exemption, 173.107	Expl. C.	150 pounds.	Spirits of hollyhock oil.....	Cor. F. L.....	No exemption, 173.133	F. L.....	6 quarts.
Smoke candles. <i>See</i> Chemical arm- munition class B or C.		No exemption, 173.108	Expl. C.	200 pounds.	Spirits of hollyhock oil, not exceeding 1 percent antiseptics by weight.	Expl. F. L.....	173.115, 173.133	F. L.....	6 quarts.
Smoke grenades. <i>Expl. C.</i>	Expl. C.	No exemption, 173.108	Expl. C.	200 pounds.	Sporting powder. <i>See</i> Black Powder or Propellant explosives, class B explosives.				
Smoke pots. <i>Expl. C.</i>	Expl. C.	No exemption, 173.108	Expl. C.	200 pounds.	Spray starting fluid. <i>See</i> Engine starting fluid.				
Smoke shells. <i>Expl. C.</i>	Expl. C.	No exemption, 173.108	Expl. C.	200 pounds.	Spender cartridges. <i>See</i> Special dre- wicks.				
Smoke powder for canon or small arms. <i>See</i> Propellant explosives, class B.					Spuds, electric or safety. <i>See</i> Electric squibs on Safety squibs.				
Smokeless powder for small arms. <i>See</i> See § 173.88 (f), 173.197(a).					Stain. <i>See</i> Paint, enamel, lacquer.				
Smoke projectors with bursting charges.					Starter cartridges, jet engine, class B explosives.	Expl. B.....	No exemption, 173.92	Expl. B.....	200 pounds.
Smoke projectiles with expelling charge but without bursting charge. <i>See</i> Special fireworks.					Starter cartridges, jet engine, class C explosives.	Expl. C.....	No exemption, 173.102	Expl. C.....	150 pounds.
Soda ash. <i>See</i> High explosives.					Strike-on-bottles matches. <i>See</i> Matches, strike-on-bottles.				
Soda, caustic solution. <i>See</i> Caustic soda, liquid.					Strontium arsenite solid.....	Pois. R.....	173.364, 173.365	Pois.	200 pounds.
Sodium aluminum hydride. <i>F. S.</i>		No exemption, 173.266	P. S.....	25 pounds.	Strontium chloride.....	Ory. M.....	173.153, 173.163	Ory.	100 pounds.
Sodium aluminate, liquid.....		<i>Cor.</i>	Corrosive.....	10 gallons.	Strontium chloride, wet.....	Ory. M.....	173.153, 173.163(a)(6)	Ory.	300 pounds.
Sodium amide.....		<i>F. S.</i>	No exemption, 173.266	25 pounds.	Strontium nitrate.....	Ory. M.....	173.153, 173.163	Ory.	100 pounds.
Sodium arsenite, solid. <i>Pois. B.</i>		<i>Pois. B.</i>	173.361, 173.368	200 pounds.	Stronitium peroxide.....	Ory. M.....	173.153(a), 173.154	Ory.	100 pounds.

PART 173—SHIPPERS

(A) In Part 173—Table of Contents, §§ 173.92, 173.94, 173.381, 173.382, 173.402, 173.405, 173.406, 173.407, 173.409, 173.410, 173.413, and 173.414 are amended; §§ 173.415, 173.416, 173.417, 173.420, 173.421, 173.422, and an Appendix A to Part 173 are added; §§ 173.408, 173.411, and 173.412 are canceled as follows:

Sec.

- 173.92 Jet thrust units (jato), class B explosives; rocket motors, class B explosives; igniters, jet thrust (jato), class B explosives; igniters, rocket motors, class B explosives; and starter cartridges, jet engine, class B explosives.
- 173.94 Explosive power devices, class B.
- 173.381 Irritating materials, irritant label; definition.
- 173.382 Irritating materials, not specifically provided for.
- 173.402 Labeling hazardous materials.
- 173.405 Explosives labels.
- 173.406 Nonflammable gas label.
- 173.407 Flammable gas label.
- 173.409 Flammable liquid label.
- 173.410 Flammable solid label.
- 173.413 Oxidizing material labels.
- 173.414 Poisonous material labels.
- 173.415 Irritating material labels.
- 173.416 Radioactive material labels.
- 173.417 Corrosive material label.
- 173.420 Empty label.
- 173.421 Spontaneously combustible material label.
- 173.422 Water-reactive material label.

Appendix A to Part 173—Specifications for Colors.

(B) In § 173.29, paragraphs (e) and (f) are amended to read as follows:

§ 173.29 Empty containers.

(e) Any packaging or accessory which has been used for a shipment of radioactive materials and which contains residual internal radioactive contamination, when shipped as empty, must be securely closed. The external surface must be free of significant removable radioactive contamination as provided in § 173.397(a). The radiation at the external surface of the packaging must not exceed 0.5 millirem per hour. The "Empty" label, described in § 173.420, must be affixed to the packaging.

(f) Unless otherwise specifically provided, any empty packaging offered for transportation (see paragraph (a) of this section) bearing labels described in §§ 173.405 through 173.422 (except § 173.420 of this subchapter) must have these labels removed, obliterated, or completely covered. The label described in § 173.420 is authorized for the latter purpose. Each packaging which last contained explosives and on which the word "Explosives" or the shipping name is printed, stenciled, or otherwise marked or applied, when shipped as empty, must have this marking completely covered or obliterated if shipped in less-than-carload or less-than-truckload lots, or on open-top or flat cars or on open-top or flatbed motor vehicles or trailers. Covering or oblitera-

tion of these labels and markings is not required for carload or truckload shipments made in closed cars or van-type motor vehicles when loaded by the shipper and unloaded by the consignee or their authorized agents.

(C) In § 173.54, paragraph (b) is amended to read as follows:

§ 173.54 Ammunition for cannon.

(b) Each outside package must be plainly marked, "Ammunition for Cannon with Explosive Projectiles," "Ammunition for Cannon with Gas Projectiles" (see § 173.414(a) for required label), "Ammunition for Cannon with Smoke Projectiles," "Ammunition for Cannon with Incendiary Projectiles," or "Ammunition for Cannon with Illuminating Projectiles," as appropriate.

(D) In § 173.56, paragraph (g) is amended to read as follows:

§ 173.56 Ammunition, projectiles, grenades, bombs, mines, gas mines, and torpedoes.

(g) Bombs, projectiles, grenades, ammunition for cannon with gas projectiles, or other containers loaded with a poisonous gas or liquid, class A, and an explosive charge, either boxed or unboxed (see paragraph (c) of this section), must bear the "Poison Gas" label.

(E) In § 173.57, paragraph (b) is amended to read as follows:

§ 173.57 Rocket ammunition.

(b) Each outside package must be plainly marked "Rocket Ammunition with Explosive Projectiles," "Rocket Ammunition with Gas Projectiles" (see § 173.414(a) for required label), "Rocket Ammunition with Smoke Projectiles," "Rocket Ammunition with Incendiary Projectiles," or "Rocket Ammunition with Illuminating Projectiles," as appropriate.

(F) In § 173.86, paragraph (c) and paragraph (d)(6) are amended to read as follows:

§ 173.86 New explosives and samples for laboratory examination.

(c) Shipments of samples of explosives, fireworks, and explosive devices must be packaged, marked, and labeled (see paragraph (d)(6) of this section), and described as required by this part for the explosive contained therein.

(1) If the explosive in the sample has not been examined and approved as required by paragraph (a) of this section, a tentative classification must be assigned by:

(i) The Bureau of Explosives for other than military explosives, and

(ii) The Department of Defense (Army Material Command—AMCSF; Naval Ordnance Systems Command—ORD-048; HQ USAF, IGD/SEOE) for military explosives.

(d) • • •

(6) Each package containing a sample of an explosive for laboratory examination must be clearly marked on the outside of the package with the words "Sample for Laboratory Examination," and labeled in accordance with § 173.402 of this subchapter.

(G) In § 173.91, paragraph (j) is canceled as follows:

§ 173.91 Special fireworks.

(j) [Cancelled]

(H) In § 173.92, the heading is amended and paragraph (e) is canceled as follows:

§ 173.92 Jet thrust units (jato), Class B explosives: rocket motors, Class B explosives: igniters, jet thrust (jato), Class B explosives; igniters, rocket motors, Class B explosives; and starter cartridges, jet engine, Class B explosives.

(e) [Cancelled]

(I) In § 173.93, paragraph (g)(2) is canceled as follows:

§ 173.93 Propellant explosives (solid) for cannon, small arms, rockets, guided missiles, or other devices, and propellant explosives (liquid).

(g) • • •

(2) [Cancelled]

(J) In § 173.94, the heading is amended, paragraph (j) is canceled as follows:

§ 173.94 Explosive power devices, Class B.

(j) [Cancelled]

(K) In § 173.101, paragraphs (c) and (d) are amended to read as follows:

§ 173.101 Small-arms ammunition.

(c) Packages containing small-arms ammunition are exempt from the label prescribed in § 173.402, but the outside of each package must be plainly marked "Small Arms Ammunition."

(d) Each package containing cartridges with Irritant material must in addition to marking prescribed herein be marked "Irritating Agents" and must be labeled with the irritant label. (See § 173.415 for a description of the label.)

(L) In § 173.119, paragraph (h)(1)(1) is amended to read as follows:

§ 173.119 Flammable liquids not specifically provided for.

(h) • • •

(1) • • •

(i) **Bung label.** A flammable liquid as described in paragraph (e) or (f) of this section, shipped in a metal drum or barrel, in addition to the flammable liquid label described in § 173.409, must be labeled near the bung with a white rec-

tangular label or tag measuring 5 by 3 inches, bearing the following wording:

(M) In § 173.132, paragraph (b) is amended to read as follows:

§ 173.132 Cement, liquid, n.o.s., container cement, linoleum cement, pyroxylin cement, rubber cement, tile cement, wallboard cement, and coating solution.

(b) Cements, except cements containing carbon bisulfide, in glass, earthenware, or in leakproof containers with fiberboard bodies and metal tops and bottoms of not over 1-quart capacity each, or in metal containers of not over 5-gallon capacity each, packaged in a strong outside package are exempt from specification packaging, marking, and labeling requirements when offered for transportation by rail freight, highway, or water. However, when offered for transportation by water, name of contents must be marked on each outside package. Shipments for transportation by highway carriers are exempt also from Part 177 of this subchapter, except § 177.817. When offered for transportation by rail express, these shipments are exempt from specification packaging, marking, and labeling requirements, except that packages having inside containers of over 1-quart capacity each must be marked with name of contents and bear the flammable liquid label described in § 173.409. When a fiberboard box is used for these shipments by rail freight, rail express, highway, or water, the gross weight must not exceed 65 pounds.

(N) In § 173.144, paragraph (b) is amended to read as follows:

§ 173.144 Inks.

(b) Ink in glass or earthenware containers of not over 1-quart capacity each, or in metal containers of not over 5-gallon capacity each, packaged in a strong outside package is exempt from specification packaging, marking, and labeling requirements when offered for transportation by rail freight, highway, or water except that when offered for transportation by carrier by water, the name of contents must be marked on the outside package. Shipments for transportation by highway carriers are exempt also from Part 177 of this subchapter, except § 177.817. When offered for transportation by rail express, such shipments are exempt from specification packaging, marking, and labeling requirements, except that packages having inside containers of over 1-quart capacity each must be marked with name of contents and bear the flammable liquid label as described in § 173.409. When a fiberboard box is used for these shipments by rail freight, rail express, highway, or water, the gross weight must not exceed 65 pounds.

(O) In § 173.180, the introductory text of paragraph (a) is amended to read as follows:

§ 173.180 Motion-picture film, and X-ray film, unexposed.

(a) Motion-picture film, and X-ray film, unexposed (nitrocellulose base), when offered for transportation by rail express or by carrier by water must bear the flammable solid label described in § 173.410 and must be packaged in specification packagings as follows:

(P) Section 173.197a is amended to read as follows:

§ 173.197a Smokeless powder for small arms.

Smokeless powder for small arms in quantities not exceeding 100 pounds net weight transported in one car or motor vehicle may be classed as a flammable solid when approved for this classification by the Bureau of Explosives. Maximum quantity in any inside packaging must not exceed 8 pounds and inside packagings must be arranged and protected to prevent simultaneous ignition of the contents. The complete package must be a type approved by the Bureau of Explosives. Each outside package must bear a flammable solid label.

(Q) In § 173.260, paragraph (f) is amended to read as follows:

§ 173.260 Electric storage batteries, wet.

(f) Electric storage batteries containing electrolyte or corrosive battery fluid, other than those of the nonspillable type, when shipped in less-than-carload and less-than-truckload lots, must be marked and labeled as described in §§ 173.401(a), (c), and 173.417.

(R) In § 173.304, paragraph (a)(1) is amended to read as follows:

§ 173.304 Charging of cylinders with liquefied compressed gas.

(a) * * *

(1) Specifications 3,¹ 3A, 3AA, 3B, 3BN, 3D, 3E, 4, 4A, 4B, 4BA, 4B-ET, 4BW, 9,¹ 25,¹ 26,¹ 38,¹ 39, 40,¹ or 41¹ (§§ 178.36, 178.37, 178.38, 178.39, 178.41, 178.42, 178.48, 178.49, 178.50, 178.51, 178.55, 178.61, 178.65 of this subchapter), except that no specification 9, 39, 40, or 41 packaging may be charged and shipped with a mixture containing a pyrophoric liquid, carbon bisulfide (disulfide), ethyl chloride, ethylene oxide, nickel carbonyl, spirits of nitroglycerin, or poisonous material (Class A, B, or irritating material), unless specifically authorized in this part.

(S) In § 173.305, paragraph (d) is amended to read as follows:

§ 173.305 Charging of cylinders with a mixture of compressed gas and other material.

(d) *Poisonous mixtures.* A mixture containing any poisonous material, Class A, or irritating material in such proportions that the mixture would be classed as poisonous under § 173.326(a) or

¹ Use of existing cylinders authorized, but new construction not authorized.

§ 173.381(a) must be shipped in packagings as authorized for these poisonous materials.

(T) In § 173.325, paragraph (a)(3) is amended to read as follows:

§ 173.325 Classes of poisonous materials.

(a) * * *

(3) Irritating materials.

(U) In § 173.330, paragraph (a) is amended to read as follows:

§ 173.330 Chemical ammunition.

(a) Projectiles, shells, bombs, and grenades containing poisonous gases or liquids, Class A (§ 173.326), but not equipped or packaged with ignition elements, bursting charges, detonating fuzes, or explosive components, may be shipped only by, for, or to the Department of Defense. Each shipment must be packaged, marked, and labeled as required by their regulations. Each package must be labeled with the "Poison gas" label and marked "Nonexplosive" and with the name of the contents. (See §§ 173.53(r) and 173.59 for explosive chemical ammunition.)

(V) In § 173.381, the heading and paragraphs (a) and (c) are amended to read as follows:

§ 173.381 Irritating materials, irritant label; definition.

(a) For the purpose of Parts 170-189 of this subchapter, an irritating material is a liquid or solid substance which upon contact with fire or when exposed to air gives off dangerous or intensely irritating fumes, such as brombenzylcyanide, chloracetophenone, diphenylaminechlorarsine, and diphenylchlorarsine, but not including any poisonous material, Class A.

(c) The transportation of an irritating material is not permitted if there is any type of interconnection between packagings.

(W) In § 173.382, the heading, the introductory text of paragraphs (a) and (b) are amended to read as follows:

§ 173.382 Irritating materials, not specifically provided for.

(a) Irritating materials as defined in § 173.381(a) for which special packaging is not otherwise prescribed, must be packaged in specification packagings as follows:

(b) No irritating material may be loaded into or transported in any cargo tank.

(X) In § 173.383, paragraph (a) is amended to read as follows:

§ 173.383 Chemical ammunition.

(a) Chemical ammunition consisting of projectiles, shells, bombs, or other containers, except grenades, filled with an irritating material without ignition elements, bursting charges, detonating fuzes, or other explosive components,

must be packaged for shipment in strong outside wooden or metal boxes. Boxes must be marked with name of contents and labeled as prescribed in this part for gases, liquids, or chemicals contained therein.

§ 173.396 [Amended]

(Y) In § 173.396, paragraph (g)(3) is amended by changing § 173.414 to read "§ 173.416." See docket HM-73; Amendment No. 173-69 (38 FR 4396).

(Z) In § 173.399, the introductory text of paragraphs (a) and (b) are amended to read as follows:

§ 173.399 Labeling of packages of radioactive materials.

(a) Each package of radioactive materials, unless exempted by § 173.391 or § 173.392, must be labeled as provided in this section (see § 173.416 for description of labels). The label to be used must be determined by the transport index or other considerations as follows:

(b) A radioactive material having any other hazardous characteristic as defined elsewhere in this part also must bear any other labels as required by this part according to the hazards of the material (see §§ 173.2 and 173.402). For example:

(1) Packages containing the solid nitrates of uranium or thorium must bear both a "Radioactive" label and an "Oxidizer" label.

(AA) The editorial note immediately preceding § 173.400 is deleted.

(BB) In § 173.400, paragraphs (a) and (d) are amended; paragraph (a)(1) is added; paragraphs (e), (f), (g) and Note 2 following paragraph (a) are canceled as follows:

§ 173.400 Explosives.

(a) Each package containing explosives must be labeled as prescribed in § 173.402 and marked with its proper shipping name as shown in § 172.5 of this subchapter and such other marking as prescribed for the explosive in the shipment. Abbreviations must not be used. (See Note 1.)

Note 1 remains the same.

Note 2: [Canceled].

(1) Except as specified in paragraph (d) of this section, a label is not required on military ammunition shipped by, for, or to the U.S. Department of Defense when in carload or truckload shipments if the shipment is loaded and unloaded by the shipper, or the Department of Defense.

(d) Each package of chemical ammunition, explosive, containing poisonous gases, solids or liquids, Class A, Class B, or irritating material must also have securely attached to it labels described in § 173.414 or § 173.415, as appropriate.

(1) A carload or truckload shipment of chemical ammunition, explosive, containing poisonous gases, solids or liquids, Class A, Class B, or irritating material

offered for transportation by, for, or to the U.S. Department of Defense is exempt from labeling requirements when the shipment is loaded or unloaded by the shipper or his duly authorized agent and this shipment is accompanied by qualified personnel supplied with equipment to repair leaks or other container failure which will permit escape of contents.

- (e) [Canceled]
- (f) [Canceled]
- (g) [Canceled]

(CC) In § 173.402, the heading and paragraphs (a) and (b) are amended to read as follows:

§ 173.402 Labeling hazardous materials.

(a) Except as otherwise provided in this part, no person may offer for transportation a package containing a hazardous material unless that package is conspicuously labeled in accordance with the following:

(1) For an explosive, an "Explosive A," "Explosive B," or "Explosive C" label as appropriate. For the label description, see § 173.405.

(2) For a nonflammable compressed gas, a "Nonflammable gas" label as described in § 173.406.

(3) For a flammable compressed gas, a "Flammable gas" label as described in § 173.407.

(4) For a flammable liquid, a "Flammable liquid" label as described in § 173.409.

(5) For a flammable solid, a "Flammable solid" label as described in § 173.410.

(6) For an oxidizing material that is not an organic peroxide, an "Oxidizer" label as described in § 173.413(a).

(7) For an organic peroxide that is classed as an oxidizing material, an "Organic peroxide" label as described in § 173.413(b).

(8) For any poisonous material except an irritating material, a "Poison gas" or "Poison" label as appropriate. For the label description see § 173.414.

(9) For a poisonous material that is an irritating material, an "Irritant" label as described in § 173.415.

(10) For a radioactive material, "Radioactive—White I," "Radioactive Yellow-II," or "Radioactive Yellow-III" labels, as appropriate. Each package must be labeled with two such labels, affixed to opposite sides of the package. For the label description see § 173.416.

(11) For a corrosive material, a "Corrosive" label as described in § 173.417.

(12) As prescribed for use under § 173.29 of this subchapter, an "Empty" label as described in § 173.420.

(13) For a metal barrel or drum containing a flammable liquid having a vapor pressure exceeding 16 p.s.i.a., a "Bung" label as described in § 173.119(h)(1)(i).

(b) If the material in a package has more than one classification, one of which is class A explosives, class A poison, or radioactive materials, the package must be labeled for each hazard.

(DD) In § 173.403, paragraph (a) is amended and paragraphs (b) and (c) are canceled as follows:

§ 173.403 Labels for mixed packing.

(a) When hazardous materials having different classifications are packed within the same packaging or the same outer enclosures as described in § 173.25, the outside of the package must be labeled as required for each material involved.

- (b) [Canceled]
- (c) [Canceled]

(EE) In § 173.404, paragraphs (b), (d), (e), and (g) are amended; paragraphs (f) and (h) and note following paragraph (g) are added to read as follows:

§ 173.404 Labels.

(b) Labels must not be applied to a package containing only material which is not subject to Parts 170–189 of this subchapter or which is exempted therefrom. However, this paragraph does not prohibit the use of labels required for purposes of import or export shipments or required by 14 CFR 103.13 of the Federal Aviation Regulations on packages destined for transportation by air.

(d) Except as otherwise provided in this part, each label must be diamond shape with each side at least 4 inches long and have a solid line border at least 3.5 inches long on each side. The specifications for colors in Appendix A to this part should be followed for the colors prescribed in §§ 173.405 through 173.422.

(e) Form identification information (including name of supplier) may be printed on a label, in type not larger than 10 point, if it is placed outside of the solid line border of the label.

(f) For import shipments only, labels affixed to packages in another country having the same size, symbols, and color as prescribed in these regulations are authorized in place of the labels prescribed herein. They may contain inscriptions required by the country of origin.

(g) A label may be overprinted or overprinted with the appropriate hazard class numeral as listed in § 172.4 of this subchapter. The number should be black, at least 0.25 inch in height, and must be located in the bottom corner of the label.

Note: The display of the class number on labels is required by some foreign governments.

(h) Labels required by the regulations immediately prior to January 1, 1974, may be used until January 1, 1975. This provision does not apply to the required use of labels for explosives.

(FF) Section 173.405 is amended to read as follows:

§ 173.405 Explosives labels.

(a) Each "Explosive A," "Explosive B," and "Explosive C" label except for size and color, must be as shown:

(1) In addition to the requirements specified in § 173.404, each label must be orange, with the inscription, border, and symbol black.

(GG) Section 173.406 is amended to read as follows:

§ 173.406 Nonflammable gas label.

(a) Each "Nonflammable gas" label except for size and color must be as shown:

(1) In addition to the requirements of § 173.404, each label must be green, with the inscription, border, and symbol black.

(HH) Section 173.407 is amended to read as follows:

§ 173.407 Flammable gas label.

(a) Each "Flammable gas" label except for size and color must be as shown:

(1) In addition to the requirements of § 173.404, each label must be red, with the inscription, border, and symbol black.

§ 173.408 [Cancelled]

(II) Section 173.408 is canceled.

(JJ) Section 173.409 is amended to read as follows:

§ 173.409 Flammable liquid label.

(a) Each "Flammable liquid" label except for size and color must be as shown:

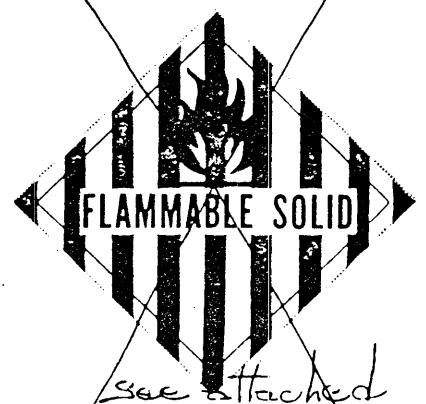

(1) In addition to the requirements of § 173.404, each label must be red, with the inscription, border, and symbol black.

(KK) Section 173.410 is amended to read as follows:

§ 173.410 Flammable solid label.

(II) Section 173.408 is canceled.

(a) Each "Flammable solid" label except for size and color must be as shown:

(1) In addition to the requirements of § 173.404, each label must be white with vertical red stripes as depicted by the shaded area, with the inscription, border, and symbol black. The words "Flammable solid" must not contact any red stripe.

§§ 173.411-173.412 [Cancelled]

(LL) Section 173.411 is canceled.

(MM) Section 173.412 is canceled.

(NN) Section 173.413 is amended to read as follows:

§ 173.413 Oxidizing material labels.

(a) Each "Oxidizer" label except for size and color must be as shown:

(1) In addition to the requirements of § 173.404, each label must be yellow, with the inscription, border, and symbol black.

(b) Each "Organic peroxide" label except for size and color must be as shown:

(1) In addition to the requirements of § 173.404, each label must be yellow, with the inscription, border, and symbol black.

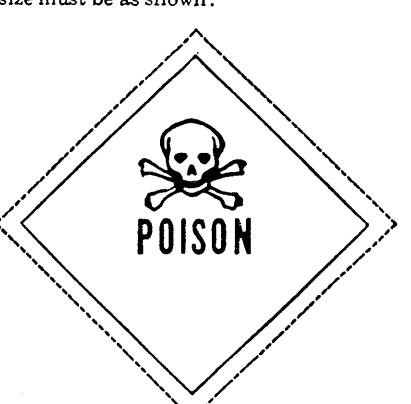

(OO) Section 173.414 is amended to read as follows:

§ 173.414 Poisonous material labels.

(a) In addition to the requirements of § 173.404, each "Poison gas" label except for size must be as shown:

(b) In addition to the requirements of § 173.404, each "Poison" label except for size must be as shown:

(1) For export or import shipments and if required by the regulations of the country of origin, destination, or through which the shipment will be transported, this label may be used for etiologic agents

in addition to the label required by § 173.388.

(PP) Section 173.415 is added to read as follows:

§ 173.415 Irritating material labels.

(a) Each "Irritant" label except for size and color must be as shown:

(1) In addition to the requirements of § 173.404, the inscription must be in red and the border black.

(2) For import or export shipment, in addition to the requirements of § 173.404, each "Irritant" label except for size may be as shown:

(QQ) Section 173.416 is added to read as follows:

§ 173.416 Radioactive materials labels.

(a) Each "Radioactive-White-I" label except for size and color must be as shown:

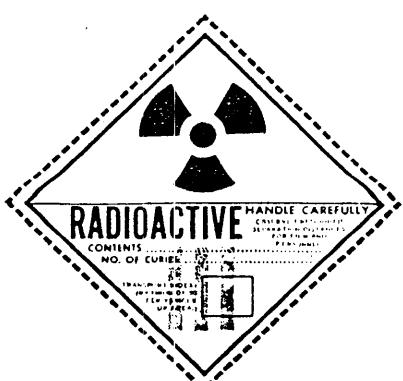

(1) In addition to the requirements of § 173.404, each label must be white. The printing, border, and symbol must be black except that the vertical bar must be a red overprint.

(b) Each "Radioactive Yellow-II" label except for size and color must be as shown:

(1) In addition to the requirements of § 173.404, the upper half must be yellow and the bottom half must be white. The printing, border, and symbol must be black except that the two vertical bars must be a red overprint.

(c) Each "Radioactive Yellow-III" label except for size and color must be as shown:

(1) In addition to the requirements of § 173.404, the upper half must be yellow and the bottom half must be

white. The printing, border, and symbol must be black except that the three vertical bars must be a red overprint.

(RR) Section 173.417 is added to read as follows:

§ 173.417 Corrosive material label.

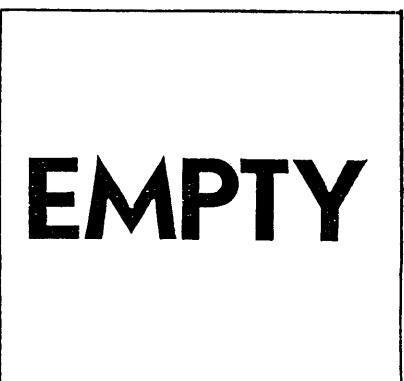

(a) In addition to the requirements of § 173.404, each "Corrosive" label except for size must be as shown:

(SS) Section 173.420 is added to read as follows:

§ 173.420 Empty label.

(a) Each "Empty" label except for size must be as shown:

(1) Each side must be at least 6 inches long, with each letter at least 1 inch high.

(TT) Section 173.421 is added to read as follows:

§ 173.421 Spontaneously combustible material label.

(a) The "Spontaneously combustible" label except for size and color must be as shown:

(1) In addition to the requirements of § 173.404, the label must be white in the upper half and red in the lower half. The inscription, border, and symbol must be black.

(b) If use of this label is required by the regulations of another country, it may be used in addition to the label required by § 173.404.

(UU) Section 173.422 is added to read as follows:

APPENDIX A TO PART 173—SPECIFICATIONS FOR COLORS¹

¹ Specifications for colors (in Munsell notations) on labels and placards are as follows:

Color	Paint, lacquer, enamel and plastic						Printing ink Centroid	
	Tolerances			Centroid				
	Centroid	Hue	Value	+	-	+		
+	-	+	-	+	-	-	+	
Red.....	7.5R 4.0/14	8.5R	6.5R	4.5°	3.5°	/16	/12 7.5R 4.3/13.	
Orange.....	5.0YR 6.0/15	6.25YR	3.75YR	6.5°	5.5°	/16	/13 5YR 6.5/14.	
Yellow.....	5.0Y 8.0/12	6.5Y	3.5Y	8.5°	7.5°	/14	/10 5Y 8.2/12.	
Green.....	7.5G 4.0/9	0.5BG	5.0G	4.5°	3.5°	/11	/7 /0 7.5G 4.1/9.	
Blue.....	2.5PB 3.5/10	4.5PB	10.0B	4.0°	3.0°	/12	/8 2.5PB 4.2/10.	
Purple.....	10.0P 4.5/10	2.5RP	7.5P	5.0°	4.0°	/12	/8 /6.5 10P 4.5/12.	

NOTE 1: Black and colors on labels and placards must be capable of withstanding a 72-hour fadeometer test, and withstanding open-weather exposure for no less than 30 days without a substantial reduction in effectiveness.

NOTE 2: The maximum chroma is not limited. Colors within the specified hue and value limits may have any saturation above that specified for the chroma minimum, however, chroma at least as strong as the centroid is desired.

NOTE 3: For the colors green and purple, the minimum saturation (chroma) limits for porcelain enamel on metal are lower than for most other surface coatings. Therefore, the minimum chroma limits for porcelain enamel on metal for these 2 colors may be as low as that shown in the chroma double minus column.

NOTE 4: Color chips are available from the National Technical Information Service (NTIS), Springfield, Va. 22151, as a set of the 6 colors and prescribed tolerances for \$18 per set.

PART 174—CARRIERS BY RAIL FREIGHT

(A) In § 174.507, the sentence preceding paragraph (a), and paragraph (c) are amended to read as follows:

§ 174.507 Labels.

(See §§ 173.405 to 173.422 of this subchapter for description of labels.)

(c) Labels prescribed in §§ 173.405 through 173.422 of this subchapter must have been applied to packages by the shipper, unless exempted from the labeling requirements, the exemption being noted on the shipping paper.

§ 174.511 [Amended]

(B) In § 174.511, the text following the certification is canceled.

§ 173.422 Water-reactive material label.

(a) The "Dangerous when wet" label except for size and color must be as shown:

(1) In addition to the requirements of § 173.404, the label must be blue. The inscription, border, and symbol must be black.

(b) If use of this label is required by the regulations of another country, it may be used in addition to the label required by § 173.404.

(VV) Appendix A is added to Part 173 to read as follows:

§ 174.532 Loading other hazardous materials.

(b) Flammable liquids or flammable gases must not be loaded, transported, or stored in cars equipped with any type of lighted heater or open-flame device, or in cars equipped with any apparatus or mechanism utilizing an internal combustion engine in its operation.

(1) Flammable liquids or flammable gases must not be loaded in truck bodies or trailers equipped with lighted heaters or any automatic heating or refrigerating apparatus when such truck bodies or trailers are loaded on flatcars.

(2) This prohibition does not apply and heating or refrigeration apparatus may be operated on motor vehicles loaded on flatcars when such motor vehicles are loaded with flammable liquids or flammable gases, when the lading space is equipped with no electrical apparatus other than nonsparking or explosion-proof types, no combustion apparatus in the lading space, and no connection for return of air from the lading space to any combustion apparatus. The heating system must be such that no part of the lading is heated over 130° F., and conforms to § 393.77 of this title.

(c) Packages bearing labels must be loaded so they cannot fall and other packages cannot fall onto or slide against them. This requirement does not preclude the use of loading methods that are designed to permit limited movement of the load and that are approved in writing by the Federal Railroad Administrator. Packages bearing markings "This Side Up" or "This End Up" must be so loaded. Hazardous materials for which a flammable liquid, flammable gas, flammable solid, oxidizer, nonflammable gas, or a corrosive label (liquids only) is prescribed herein must not be loaded in the same car with explosives named in §§ 173.53 to 173.87 of this subchapter. (See loading and storage-chart § 174.538.) Packages bearing a flammable solid or an oxidizer label must not be loaded in the same end of a car with packages bearing a corrosive label (liquids only), except that shippers loading carload shipments who have obtained prior approval from the Department, may load materials together when it is known that the mixture of contents would not cause a dangerous evolution of heat or gas.

(C) In § 174.527, paragraph (a) is amended to read as follows:

§ 174.527 Forbidden mixed loading and storage.

(a) Class A explosives and initiating or priming explosives must not be transported together in the same rail car. Additionally, they must not be transported, loaded, or stored on carrier property with charged electric storage batteries or with any hazardous material for which a flammable liquid, flammable solid, flammable gas, oxidizer, organic peroxide, non-flammable gas, corrosive, or radioactive label is prescribed in these regulations.

(D) In § 174.532, paragraphs (b) and (c) and paragraphs (b)(1) and (b)(2) are amended to read as follows:

(E) In § 174.538, paragraph (a) chart, the headings of columns 10, 11, 12, and 13, both horizontally and vertically, and footnote b are amended to read as follows:

§ 174.538 Loading and storage chart of hazardous materials.

(a) * * *

Chart * * *

Column 10: Flammable liquids or flammable gases; Flammable liquid or flammable gas label.

Column 11: Flammable solids or oxidizing materials; Flammable solid, oxidizer, or organic peroxide label.

Column 12: Corrosive liquids; Corrosive label.

Column 13: Nonflammable gases; Nonflammable gas label.

(i) Unless loaded in opposite ends of car, corrosive liquids must not be loaded with flammable solids, oxidizing materials, ammunition for cannon with or without projectiles, or propellant explosives, except that shippers loading carload shipments of corrosive liquids and flammable solids or oxidizing materials and who have obtained prior approval from the Department may load such materials together when it is known that the mixture of contents will not cause a dangerous evolution of heat or gas.

(F) In § 174.541, paragraphs (a)(1) and (b) are amended to read as follows:

§ 174.541 "Dangerous" placards; "Dangerous—Radioactive material" placards; or "Caution—Residual phosphorus" placards.

(a) *

(1) Cars containing one or more packages bearing a flammable liquid, flammable solid, flammable gas, oxidizer, organic peroxide, corrosive (liquid only), or poison label, as described in §§ 173.405 to 173.417 of this subchapter.

(b) "Dangerous—Radioactive Material" placards, as prescribed in § 174.553, must be applied to cars containing packages bearing a "radioactive yellow-III" label (three vertical red stripes) as described in § 173.416(c) of this subchapter, and to carload lots under §§ 173.392 and 173.393 (j) and (k) of this subchapter.

(G) In § 174.544, subparagraphs (a)(2), (a)(3), and (a)(6) are amended to read as follows:

§ 174.544 Placards not required.

(a) *

(2) Cars, other than tank cars, containing nonflammable gas.

(3) Cars containing irritating materials.

(6) Cars containing packages of radioactive material which are exempted from labeling under § 173.391 of this subchapter, which bear only the labels described in § 173.416(a) and (b) of this subchapter, or which are exempted from placarding under § 173.392(c)(7) of this subchapter.

(H) In § 174.576, paragraph (b) is amended to read as follows:

§ 174.576 Intermediate shippers and carriers.

(i) A carrier offering or delivering for rail transportation any loaded motor vehicle or any loaded motor vehicle trailer, semitrailer, or container containing any hazardous material shall show on the shipping order, shipping paper, transfer sheet, or other billing issued in place thereof, in addition to the description of the vehicle or container, the proper name of the material

as shown in § 172.5 of this subchapter and the kind of placards applied.

§ 174.584 [Amended]

(I) In § 174.584 paragraph (a) table, the first column headed, "Label Notation to Follow Entry of the Article on the Billing," is deleted.

§ 174.586 [Amended]

(J) In § 174.586, paragraph (h)(3) is amended by changing § 173.414 to read "§ 173.416." See Docket HM-73; Amendment No. 174-16 (38 FR 4396).

(K) In § 174.598, paragraph (c) is amended to read as follows:

§ 174.598 Inspection of cars at interchange.

(c) Shipments of hazardous materials offered by connecting lines must comply with Parts 170-189 of this subchapter, and the revenue waybill, freight bill, manifest of lading, card waybill, switching order, transfer slip ticket, or other billing, must bear the placard endorsement prescribed by § 174.584.

PART 175—CARRIERS BY RAIL EXPRESS

(A) In § 175.653, paragraph (a) is amended to read as follows:

§ 175.653 Labels.

(a) Labels described in §§ 175.405 through 173.422 of this subchapter must have been applied to packages by the shipper, unless exempted from the labeling requirements, the exemption being noted on the shipping paper.

§ 175.654 [Amended]

(B) In § 175.654 the text following the certification is canceled.

(C) In § 175.655, paragraph (d) and the introductory text of paragraph (h) are amended; paragraph (j)(4) is amended by changing § 173.414 to read "§ 173.416." See Docket HM-73; Amendment No. 175-9 (38 FR 4396).

§ 175.655 Protection of packages.

(d) Shipments of hazardous materials, except poisons and nonflammable compressed gases, when transported in passenger carrying trains, should be loaded in the car occupied by an express employee or in connecting cars to which an express employee has access through end doors, and in a place that will permit their ready removal in case of fire. They must not be loaded in cars or stored in stations near steam pipes or other sources of heat. Explosives, flammable liquids, and flammable compressed gases must not be loaded, transported, or stored in cars or stations equipped with lighted heaters or where open-flame lights or stoves or electric devices having exposed heating coils are used. No placard is required on these cars when occupied by an express employee. Packages bearing a poison label, when practicable, should be loaded in sealed cars; when loaded in cars occupied by a mes-

senger, care should be taken to prevent any contents sifting or leaking from packagings.

(h) Carriers shall prevent contact of contents of packages bearing either a flammable solid, oxidizer, or corrosive label with combustible substances, such as sawdust, shavings, or sweepings, that may be present in express cars. The space should be swept or cleaned.

PART 176—RAIL CARRIERS IN BAGGAGE SERVICE

(A) In § 176.703, paragraph (b) table is amended by changing all "Red gas label" in the second column to read "Flammable gas label" and the "Green gas label" to read "Nonflammable gas label"; paragraph (f) is amended to read as follows:

§ 176.703 Acceptable articles.

(f) When slow-burning (nonflammable) motion-picture films are packaged in the same outside containers with flammable motion-picture films, the outside packages must bear the flammable solid label, and the total contents of the outside container must not exceed the quantity or gross weight permitted for flammable films. (See paragraph (e) of this section.)

§ 176.704a [Amended]

(B) In § 176.704a, the text following the certificate is canceled.

(C) In § 176.704b, paragraph (a) is amended to read as follows:

§ 176.704b Labels.

(a) Labels described in §§ 173.405 through 173.422 of this subchapter must have been applied to packages by the shipper, unless exempted from the labeling requirements, the exemption being noted on the shipping papers.

PART 177—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

(A) In § 177.802, paragraphs (b), (c), and (d) are canceled as follows:

§ 177.802 Application of regulations in Parts 170-189 of this chapter.

(b) [Canceled]

(c) [Canceled]

(d) [Canceled]

(B) In § 177.815, paragraph (a) is amended to read as follows:

§ 177.815 Labels.

(a) Labels described in §§ 173.405 through 173.422 of this subchapter must have been applied to packages by the shipper, unless exempted from the labeling requirements, the exemption being noted on the shipping paper.

(C) In § 177.819 paragraph (a), the text following the certificate is canceled.

(D) In § 177.821, paragraph (f) is amended to read as follows:

§ 177.821 Hazardous materials forbidden or limited for transportation.

(f) Smokeless powder for small arms in quantities not exceeding 100 pounds net weight transported in one car or motor vehicle may be classed as a flammable solid when approved for this classification by the Bureau of Explosives. Maximum quantity in any inside packaging must not exceed 8 pounds and inside packagings must be arranged and protected to prevent simultaneous ignition of the contents. The complete package must be a type approved by the Bureau of Explosives. Each outside package must bear a flammable solid label.

(E) In § 177.823, paragraph (a)(4) is amended and note 1 following paragraph (b)(1) is canceled as follows:

§ 177.823 Required exterior marking on motor vehicles and combinations.

(a) * * *

(4) Any motor vehicle, trailer, or other cargo-carrying body containing more than one kind of hazardous material requiring different placards under the provisions of subparagraph (a)(1) of this paragraph, the aggregate gross weight of which totals 1,000 pounds or more, must be marked or placarded "Dangerous" instead of being marked or placarded as required by that subparagraph. Any such vehicle which contains any quantity of explosives class A, explosives class B, poison class A, or radioactive materials requiring labeling as described in § 173.416(c) of this subchapter, must display the marking or placard "Explosives A," "Explosives B," "Poison," or "Radioactive," as appropriate, in addition to the marking or placard "Dangerous." If explosives class A and explosives class B are loaded on the same vehicle, the "Explosives B" marking need not be displayed.

(b) * * *

(1) * * *

NOTE 1: [Canceled].

(F) In § 177.834, paragraph (I) is amended to read as follows:

§ 177.834 General requirements.

(1) *Truck bodies or trailers equipped with heaters or automatic refrigeration apparatus.* Except as provided in subparagraph (1) of this paragraph flammable liquids and flammable gases must not be loaded in truck bodies or trailers equipped with heaters or automatic refrigerating apparatus unless the auto-

matic apparatus is rendered inoperative. The fuel tanks for such apparatus must be empty or removed from the vehicle, except that liquefied petroleum gas fuel tanks exterior to the vehicle body may have their valves closed and disconnected from the fuel feed lines in place of being emptied or removed.

(G) In § 177.838, paragraphs (e)(2) and (g) are amended to read as follows:

§ 177.838 Flammable solids and oxidizing materials.

(e) * * *

(2) *Flammable liquids.* Matches must not be loaded next to a package bearing a flammable liquid label.

(g) Smokeless powder for small arms in quantities not exceeding 100 pounds net weight transported in one car or motor vehicle may be classed as a flammable solid when approved for this classification by the Bureau of Explosives. Maximum quantity in any inside packaging must not exceed 8 pounds and inside packagings must be arranged and protected so as to prevent simultaneous ignition of the contents. The complete package must be a type approved by the Bureau of Explosives. Each outside package must bear a flammable solid label.

(H) In § 177.841, paragraphs (b) and (c) are amended to read as follows:

§ 177.841 Poisons:

(b) No Class A or irritating materials in cargo tanks. No poison, Class A, or irritating material may be loaded into or transported in any cargo tank.

(c) *Class A poisons or irritating materials.* The transportation of a Class A poison or an irritating material is not permitted if there is any interconnection between packagings.

§ 177.842 [Amended]

(I) In § 177.842, paragraph (f) is amended by changing § 173.414 to read § 173.416. See Docket HM-73; Amendment No. 177-23 (38 FR 4366).

(J) In § 177.848 paragraph (a) chart, the headings of columns 10, 11, 12, and 13 both horizontally and vertically, and footnote b following the table are amended to read as follows:

§ 177.848 Loading and storage chart of hazardous materials.

(a) * * *

Chart * * *

Column 10: Flammable liquids or flammable gases; Flammable liquid or flammable gas label.

Column 11: Flammable solids or oxidizing materials; Flammable solid, oxidizer, or organic peroxide label.

Column 12: Corrosive liquids; Corrosive label.

Column 13: Nonflammable gases; Nonflammable gas label.

Corrosive liquids must not be loaded above or adjacent to flammable solids, oxidizing materials, ammunition for cannon with or without projectiles, or propellant explosives, except that shippers loading truckload shipments of corrosive liquids and flammable solids or oxidizing materials packages and who have obtained prior approval from the Department may load such materials together when it is known that the mixture of contents would not cause a dangerous evolution of heat or gas.

(K) In § 177.870, paragraph (g) is amended to read as follows:

§ 177.870 Regulations for passenger carrying vehicles.

(g) *Radioactive materials.* In addition to the limitations prescribed in paragraphs (b) and (e) of this section, no person may transport any radioactive material requiring labels under § 173.416 of this subchapter in or on any motor vehicle carrying passengers for hire except where no other practicable means of transportation is available. Packages of radioactive materials must be stored only in the trunk or baggage compartment of the vehicle, and must not be stored in any compartment occupied by persons. Packages of radioactive materials must be handled and placed in the vehicle as prescribed in § 177.842.

This amendment is effective January 1, 1974. However, compliance with the regulations, as amended herein, is authorized immediately.

(Secs. 831-835 of Title 18, United States Code, sec. 9 of the Department of Transportation Act, 49 U.S.C. 1657; title VI sec. 902(h), Federal Aviation Act of 1958, U.S.C. 1421-1430, 1472, 1655(e).)

Issued in Washington, D.C. on February 12, 1973.

JAMES F. RUDOLPH,
Board Member for the
Federal Aviation Administration.
